WHERE THE  
**BEST**  
ARE TRAINED

**AIC'S FACULTY DO MORE THAN 'TEACH'. THEY LISTEN, PROVOKE AND CHALLENGE**

Future Proof Learning

## Overview

This basic conversational English course aims to have Preschool Mandarin teachers with little spoken English background to get started using simple English to communicate with parents.

After the 30 hours of lessons, participants will have learned to exchange greetings, hold a simple conversation with parents about their child in their centres.

## Learning Objectives

In this Basic Conversational English Course, the trainer will emphasize topics that are of relevance and interest in preschool centres that can be immediately applied. The classes take place in small groups or on a one-to-one role play engagement to stimulate maximum interaction, which accelerates learning. The focus is on practical aspects of the language – learning how to converse and communicate efficiently in English.

The curriculum is structured and spread into over 5 days meaningfully in terms of content design. Specific design include vocabulary, grammar, sentence, practicing four basic links, complemented by other materials. In the process of learning, the participants will learn English pronunciation, figures, basic greetings, basic self-introduction, and introduction of places, time, day and dates through basic English Conversation.
