

CREATING Fun MOVEMENTS for Preschoolers

WHERE THE
BEST
ARE TRAINED ★

AIC'S FACULTY DO MORE THAN 'TEACH'. THEY LISTEN, PROVOKE AND CHALLENGE

Future Proof Learning★

Course Overview

This workshop aims to introduce various fun movements for young children and explain the learning outcomes to provide preschool practitioners with the essential knowledge of motor skills development and the skills in planning, integrating and implementing fun and engaging movement activities to build, stimulate and engage pre-schoolers. It will cover topics on the benefits of outdoor play in child development and the factors affecting children's motor development in different age groups

Learning Outcomes

The aims of the course are to help participants to:

- Demonstrate an understanding of the importance of motor skills development
- Be aware of the factors that affect children's motor development
- Explore and provide ideas for different motor skills activities
- Implement strategies and hands-on activities to promote fun and engagement in teaching of motor skills development

Duration:

2 days
