Distinction	70% & Above
Credit	60% - 69%

- d) To qualify for certification of programme, students must pass all prescribed modules and practicum (where applicable).
- e) The transcripts and certificates must be vetted and approved by the Registrar Office before signing off.
- f) Awards will be conferred not more than 3 months of the end of assessment period (end of module or end of term).
- g) After approval from Examination Board, the Registrar Office will issue the certificates and academic transcripts for Diploma and Certificate programmes within 3 months after the approval from Examination Board. The award for EDP will be issued by the partner university. For WSQ qualification, the certificates will be issued by SkillsFuture Singapore (SSG).

5.1.4 Marking and Moderation of Assessments

- a) The Faculty team will review and moderate results prior to Examination Board. The Faculty team and EB may moderate marks where the results appear anomalous (e.g., where the mean of the results is very high or very low) or during mitigating circumstances that are made known to the Faculty team and/or EB.
- b) All marking and moderation shall be managed in a fair and impartial manner.
- c) If there is no need for the moderation of results, the results will be sent to the Registrar Office for collation without any adjustments.
- d) If there is a need for moderation, the EB and/or EEP (for EEP courses) will discuss and apply the moderation criteria to determine the final results.
- e) Outcome of moderation is to be approved by the Examination Board and/or EEP (for EEP courses). The final results will then be sent to the Registrar Office for collation and release to the students.
- f) The Faculty Member should return the assignments and mark lists to the Registrar Office within 20 days (3weeks) of the assignment submission deadline.
- g) Appropriate feedback should be provided, e.g., as comments on individual pieces of work.
- h) The Faculty will review all the marked assignments grading to provide appropriate recommendation to EB for approval. The marked assignments will be returned to the

students after the approval from the Examination Board. Results will be posted after approval from EB, within 3 months from the assessment period (end of module / end of term).

- i) The date for the release of results will be within 7 working days from the EB approval date. Registrar Office will inform student through the Student Portal.

5.1.5 Appeal of Assessment Results

- a) An appeal is a request for a review of a decision of an Examination Board. A student may only request a review of the decision of an Examination Board on valid grounds, which include:
 - ↵ Grade not determined by assessment method specified
 - ↵ Work handed in on time and not marked
 - ↵ Alleged disadvantage through lack of feedback
 - ↵ Alleged bias affecting the assessment
 - ↵ Alleged incorrect advice from staff teaching the unit in question
 - ↵ Any other grounds accepted for appeal and review
- b) Invalid grounds for appeal include:
 - ↵ Objectives in the unit in question
 - ↵ Assessment methods approved for unit
 - ↵ Standard required to achieve particular grades
 - ↵ Personal or medical problems
 - ↵ Financial implications of not passing the unit
 - ↵ Grades received by student in other units
 - ↵ Amount of work done
 - ↵ Penalty imposed for plagiarism in accordance with College Guidelines
- c) There is no right of appeal against decisions of an Examination Board, which are matters of academic judgment.
- d) Disagreement with the academic judgment of an Examination Board in assessing any information relating to a student's performance does not in itself constitute grounds for a request by a student for reconsideration.

- e) Candidates who wish to appeal against a decision of the examiners are allowed to do so under the terms of the College's Appeals Procedure.
- f) All appeals shall be managed in a fair and impartial manner.
- g) Appeals are to be submitted in writing, within 7 working days from the release of assessment results to the Student Support Office and the results of the appeals are to be made known to the students within 4 weeks.
- h) A student whose case is under consideration by the Examination Board shall have the right to continue with his/her course until such time as a decision is reached, to ensure that he/she is academically disadvantaged.
- i) The Registrar Office will review the request and discuss the appeal with the Associate Head Faculty. The Associate Head Faculty will engage faculty and/or Subject Matter Expert (SME) to review the appeal.
- j) For the purpose of considering the Appeal, the Examination Board shall consider where applicable the following:
 - ↵ The student's statement of appeal
 - ↵ The student's extraordinary circumstances statement
 - ↵ The student's verbal presentation to the Board (where applicable)
- k) The Faculty or SME will review the assignment. The Faculty or SME will determine the final grade (where applicable), which may be higher, lower or the same as the original grade.
- l) Outcome of appeals are to be approved by the Examination Board before notifying the student.
- m) For appeals to the external partner, the Examination Board is to endorse the outcomes before notifying the student of the outcome.
- n) The appeal grade will be reviewed and endorsed by the Examination Board. The final grade will be communicated to students within 4 weeks from the date of appeal.
- o) The appeal process is available in the Student Handbook for students to view.

5.1.6 Policy on Retaking Modules

- a) If a student fails a module on the first attempt, he/she is permitted to resubmit the major assessment item in the module. If following this resubmission, the student secures a pass, his/her final grade will be capped at the minimum pass mark.

- b) If a student fails a module on the first attempt, he/she will subsequently resubmit the major assessment item in the module. If following this resubmission, the student still fails to secure a passing grade, he/she will be granted one opportunity to retake the module.
- c) Students who are granted an opportunity to retake a module will not, on this occasion, be permitted to resubmit the major assessment item in the event of failure in the module for the second time.
- d) A module that is retaken is considered afresh. In other words, the final grade will not be capped at the minimum pass mark, and the student will be awarded the grade in accordance to his/her efforts.
- e) Students will be counselled on their academic progress after each failed module / retake, and their case management will be recorded by the Registrar Office.
- f) Students who exhaust the number of approved retakes will have the right of appeal to the EB to retake any module that they have failed thereafter if, in this instance, there are clearly identifiable extenuation circumstances.

5.1.7 Academic Misconduct Policy

- a) Except where otherwise clearly indicated, students shall be assessed on the basis of their own unassisted and unaided work.
- b) In the interests of fairness and justice, students should be aware that it is college policy to compare all coursework (where feasible) against databanks of existing material, to check whether there is a degree of similarity that might arouse suspicions of academic misconduct as defined below.
- c) In any coursework submitted for assessment there must be disclosed full particulars:
 - ↳ of all sources of information consulted (which must be distinguished as either primary or secondary); and
 - ↳ of all money paid in respect of its preparation.
- d) In the research for and preparation of coursework a student must not receive any assistance other than
 - ↳ the typing of the student's own manuscript; and
 - ↳ the obtaining of access to a source of information, including obtaining the opportunity to question a person orally or in writing.

- e) Any student found in breach of the college's regulations relating to assessments will be deemed to be guilty of academic misconduct and will in most cases be subject to disciplinary proceedings. Academic misconduct includes cheating and plagiarism.
- f) The following are examples of academic misconduct, cheating, and plagiarism that would normally result in formal investigation of a candidate's performance. The list is not exhaustive and other instances may be considered at the college's discretion:
- ↵ Obtaining unauthorised access to assessment material;
 - ↵ Introduction of unauthorised material into the room used for assessment;
 - ↵ Collusion or attempted collusion with other persons on assessments that are designed to be done by each student on his or her own;
 - ↵ Copying from another student, with or without that student's permission;
 - ↵ Disruptive behaviour during in-class assignments;
 - ↵ Impersonation;
 - ↵ Submitting work written by someone else on behalf of the candidate submitting;
 - ↵ Submitting another student's work, whether or not it has been previously submitted by that student;
 - ↵ Submitting work that has been corrected / revised, without the approval of the faculty, by an individual with a higher level of English language proficiency;
 - ↵ Failure to reference or acknowledge sources adequately, in such a way that material authored by others appears to be the candidate's own work, in any portion (page, paragraph, sentence, phrase) of work submitted for assessment.
 - Examples include:
 - Presenting substantial extracts from books, articles, thesis and other published or unpublished works, such as working papers, seminars and conference papers, internal reports, computer software, Internet materials, lecture notes or tapes, without clearly indicating their origin with quotation marks and references in footnotes or bibliography;
 - Using very close paraphrasing of sentences or whole paragraphs without due acknowledgement in the form of reference to the original work in the text or the footnote;

- Quoting directly from a source and failing to insert quotation marks around the quoted passages. In such cases it is not adequate merely to acknowledge the source;
 - ↗ The inclusion of offensive or obscene material in assessments submitted;
 - ↗ The alteration or falsification of any results document, including experimental data, or certificates.
- g) Plagiarism is defined as “presenting as one’s owned the thoughts or writings of others”, and is a form of intellectual theft. It is a corrosive force in the life of any community devoted to scholarship that violates its integrity, jeopardises the quality of the education provided, and devalues the degrees it awards. Where a candidate is suspected of cheating or plagiarism that allegation must be reported to the Chairman of the Examination Board. The procedures of investigation shall be that laid down under the sections below.

5.1.8 Procedure for Dealing with Academic Misconduct in Coursework

- a) On suspicion of academic misconduct in a piece of coursework, whether through notification from the college’s detection software or by any other means, the Faculty will inform the student in writing, attaching a copy of the current version of this document, as well as establish the following points, communicating them as soon as convenient in the form of a written report to the Chairman of the Examination Board that examines the course in question, together with copies of the student’s work and (wherever possible) the sources which it is alleged to plagiarise or otherwise imitate in breach of the above Policy:
- ↗ The extent of the alleged academic misconduct
 - the amount of text plagiarized
 - the closeness to the original text
 - the nature of the material copied, whether purely descriptive or including results, etc).
 - ↗ Student Motivation
 - Due consideration should be given to the following factors, while recognising that they are not necessarily all entirely distinct:
 - whether the student admits or denies the allegation,
 - the stage of the student in his/her course,

- the number of previous offences,
- the learning background of the student,
- the extent of the student's knowledge of the concept of academic misconduct

☞ Subsequent Investigation

- The following procedures shall apply equally for investigations into allegations of academic misconduct in respect of and Coursework.
- The Associate Head Faculty shall have responsibility for conducting the initial enquiry in consultation with the EXCO. The candidate shall have the right to give an explanation and make representations to the Associate Head Faculty.
- Where the Chairman of the Examination Board finds the case to be unsubstantiated the candidate shall be notified without delay and all reference to the incident shall be expunged from the candidate's record.
- Where the faculty has reason to suspect that a piece of work submitted by a student was wholly or in part prepared or researched or written by someone other than the student who submitted it, and this has not been disclosed by the student, the faculty may, on consultation with the Associate Head Faculty, call for the student to defend the work in a viva or a written comprehension test (if requested by the Examination Board). The viva / comprehension test will be conducted as soon as is reasonably practical. The burden of proof in such a viva or test will be upon the student to demonstrate to the College's satisfaction his/her full comprehension of the work s/he has submitted. It is the student's responsibility to appear for the viva / comprehension test. Failure to appear without satisfactory explanation will result in an immediate failure of that test, with a resulting presumption that the student is in breach of the regulations relating to unfair practice and application of sanctions as outlined below. A written report on the outcome of the viva / comprehension test will be submitted to the Chairman of the Examination Board.
- Where, after examining the available evidence, the Associate Head Faculty finds that the candidate is in breach of the regulations relating to academic misconduct, the Associate Head Faculty shall, having consulted the Examination Board, report accordingly to the candidate as to the finding of the breach, and the recommended sanction (if appropriate).

- If the candidate wishes to appeal he/she may submit an appeal, in writing within 7 days of the date of the Chairman of the Examination Board's letter, to the Chairman for forwarding to the college for consideration. The letter of appeal must state all of the grounds upon which the appeal is based. If the candidate does not appeal, the Chairman of the Examination Board shall execute the decision and report accordingly.
- If the candidate does appeal, the college will inform the candidate of the date upon which any appeal is due to be considered. The college management shall have access to all materials from the case and be able to question the Associate Head Faculty and/or marking team in making a decision on the appeal.
- The decision of the college management shall be final and shall be communicated to the candidate and the Chairman of the Examination Board.
- The candidate will be given an opportunity to make representations at each stage of the process either in person or in writing.

5.1.9 Sanctions for Academic Misconduct in Coursework

- a) Any student found, following due process of investigation, to be in breach of the foregoing Policy, will be sanctioned in line with the following tariff or series of penalties, according to the gravity of the case, and in line with such precedents as may be established from case history within the college, as recorded by the Examination Board, and, as required, with reference to practice elsewhere in the sector:
- ↪ **For a first minor offence:** The student will have an explanatory discussion with the respective faculty. An Academic Warning Notice will be issued and a record will be entered on the student's file.
 - ↪ **For infringements of this policy not considered minor, but not so serious as to warrant a greater penalty and further investigation:** Marks will be deducted for inadequate referencing. The student will be informed, an Academic Warning Notice will be issued and a record will be entered on the student's file.
- b) The following sanctions will normally be employed for second offences, or serious single offences occurring in Coursework:
- ↪ The material deemed to have been plagiarised will be disregarded, and a grade will be awarded on the remainder of the work. The student will be informed and a record will be entered on the student's file.

- ↪ The items in which plagiarised work was discovered will be required to be resubmitted, it being understood that the maximum grade that can be awarded for work so resubmitted will be the minimum pass mark. The student will be informed and a record will be entered on the student's file.
- ↪ Award of zero for the coursework element of the course. The student will be informed and a record will be entered on the student's file.
- ↪ Award of zero for the entire course or termination of student's status. The student will be informed and a record will be entered on the student's file.
